

C-22 \Rightarrow Common Errors done by Beginners while writing programs

Mistakes:

- ① `stdio.h` ✓ `studio.h` ✗
no filename \nearrow
- ② `main()` ✓ `main();` ✗
 \searrow declaration terminated incorrectly
- ③ Inside function, inside every statement we should put semicolon (;)

```
#include <stdio.h>
```

```
#include <conio.h>
```

```
void main()
```

```
{
```

```
    int a, b, sum;
```

```
    clrscr();
```

```
    printf("Enter two numbers: ");
```

```
    scanf("%d %d", &a, &b);
```

```
    sum = a + b;
```

```
    printf("sum is %d", sum);
```

```
    getch();
```

```
}
```
