

## C-94 ⇒ Solved Problems on Functions in C Grade Questions

```

int n1()
{
    static int num = 7;
    return num--;
}

int main()
{
    for( n1(); n1(); n1() )
        printf("%d", n1());
    return 0;
}
    
```

OP ⇒ 5 2.

## PROBLEM 1:

```
1  #include <stdio.h>
2  #include <stdlib.h>
3  /** 3 - FUNCTIONS PROBLEMS **/
4  int r()
5  {
6      static int num=7;
7      return num--;
8  }
9  int main()
10 {
11     for(r();r();r())
12         printf("%d\n",r());
13     getch();
14     return 0;
15 }
16 |
